Rpacheco

To help resolve printing problems or to change printer configuration settings, advanced users can print the Printer Settings Configuration sheet for instructions on advancing through the configuration menus to select and save new settings.

To print the Printer Settings Configuration sheet:

- 1 Turn off the printer.
- 2 Open the front door.
- 3 Press and hold Continue as you turn the printer back on.
- 4 Release Continue .

All of the lights cycle.

- 5 Close the door.

The Ready light appears.

- 6 To print the Printer Settings Configuration sheet, press and hold Continue until all of the lights cycle.

The sheet prints.

Siga os procedimentos acima e a impressora irá te fornecer duas páginas em inglês de como resetar o Kit de manutenção.
